

REPUBLIC OF RWANDA MINISTRY OF HEALTH

Update on COVID-19 Coronavirus — 2 April 2020

Two (2) new coronavirus cases were identified today, bringing the total to eighty-four (84).

- Two (2) frequent travellers who had visited multiple countries

All new cases have been isolated and the tracing of all contacts has been conducted for further management. All patients are under treatment in stable condition in designated health facilities. The majority are asymptomatic, and no patient is in critical condition.

Heightened vigilance continues to be required. The extension of the enhanced prevention measures announced by the Government of Rwanda must be rigorously observed. Any Rwandans or legal residents returning to the country will be subject to a mandatory 14-day quarantine at designated locations.

Continue to observe the instructions of health authorities, particularly washing hands regularly and maintaining physical distance from other people (at least 1 metre).

The **key symptoms of coronavirus** are dry cough, shortness of breath, and fever. Anyone experiencing these symptoms should call the toll-free number **114**, or dial ***114#** for automated screening, or email **callcenter@rbc.gov.rw**, or send a WhatsApp message to **+250 788 20 20 80**, or contact a medical professional.

Let's continue to work together to defeat this pandemic.
